

Construction Update – May 6, 2021

Due to an emergency gas main repair, E. Capitol Drive is CLOSED between U.S. Bank and Church Street. This closure will be the evening of Wednesday May 5th through mid afternoon of Thursday, May 6th.

We-Energies has secured the area and there is currently no danger to the public.

Traffic may enter E. Capitol Drive at Goodwin Avenue or at North Avenue but can only travel as far as U.S. Bank located at 160 E. Capitol Drive. All traffic must exit E. Capitol Drive again at North Avenue or at Goodwin Avenue.

We-Energies will be on-site to finish the gas main repair on Thursday Morning and one way traffic from North Avenue to Maple Avenue is expected to resume mid afternoon Thursday, May 6th.

The paving contractor will be on-site Thursday, May 6th working on repairing the remainder of the utility structures and excavating out the remainder of the soft spots on the southern half of the roadway.

Further updates, including an updated schedule for Paving and Line Striping of E. Capitol Drive, will be provided on Thursday, May 6th after the gas main has been successfully repaired.
