

Construction Update – May 11, 2021

The pavement markings on E. Capitol Drive were completed yesterday afternoon. **E. Capitol Drive is now open to traffic and parking.** The Contractor will be working this morning to remove all remaining barrels, barricades, no parking signs, and debris from E. Capitol Drive.

The pavement milling was completed on North Avenue yesterday afternoon. Today, the Contractor will begin adjusting utility structures to final grade and excavating soft spots in the roadway. We anticipate this work to take two days.

The tentative schedule is to patch in the excavated areas on Thursday, complete the surface pavement on Friday, and complete the pavement markings on Saturday Morning. As the work progresses and these days draw near, I will continue to provide updates on schedule changes. Please plan on North Avenue being completely closed to traffic when the surface paving occurs. Similar to E. Capitol Drive, this will allow us to ensure the best quality in the new asphalt surface that is going down.

Please continue to use caution and slow down when traveling down North Avenue – we want to be sure we complete this work quickly and safely.

A reminder that there will continue to be No Parking on North Avenue for the entire week. North Avenue should also be considered closed to thru traffic – please only use this roadway if absolutely necessary. This will allow us to get the work done as quickly as possible.
